EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bruce Cottrell on 7/12/06.

The application has been amended as follows:

Please cancel non-elected claims 1-13.

Allowable Subject Matter

Claims 14-18 and 20 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest the *single phase* SrTi_xRu_{1-x}O₃ layer or the in the claimed superconducting structure (per claims 14 and 20) nor does the prior art teach the claimed superconducting structure having a top superconducting layer of 10,000-20,000 Angstroms in thickness; this is particularly true in light of the evidence filed 6/21/06.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
